# Next Steps in WP5

**Target group oriented dissemination activities and implementation support**

**CODEMA**

City of Public Energy Management Agency

# Description of WP5

---

The experience gained in WP2 & WP3 and the developed material will be disseminated to the target groups - public administrations and housing companies

Concrete support will be given to selected building owners in the beginning of the implementation of the EPBD in order to facilitate the take-off of the market

# WP5 - Activites

---

- Production of 2 Information Packages:
  - Residential Market
  - Public Administrations
- Dissemination & Implementation support for housing companies
- Dissemination & Implementation support for public administrations
- Information Point Activities

# Information Packages

---

- Production of 2 Information Packages:
- Residential Market – housing companies, property management, estate agents, departments of municipalities (especially departments dealing with selling & renting of apartments)
- Public Administrations – municipalities, regional authorities, other public companies and entities (especially department responsible for the implementation of the EPBD)

# Information Packages

---

- Task Leaders of WP2 and WP3 will produce a draft version of Information folder
- CODEMA will produce the English master version of the 2 information packages
- Each partner will:
  - compile its own information package in their national language
  - produce & print a country specific information package based on a common structure and contents
  - place information package on project website

# Dissemination and Implementation support for Housing Companies

- Dissemination of the information package for the residential sector through the relevant associations, internet & direct mailing
- Also distribute information package to authorities, energy agencies, planners and their associations
- Carry out a 1 day training course in each region for people from housing companies (& related actors e.g. estate agents) :
  - dealing with selling and renting of apartments
  - as well as people responsible for new constructions and major renovations
- Specific consulting for selected housing companies on how to introduce the energy performance certificates (3-5 housing companies who have not been involved in WP2)

# Dissemination and Implementation support for Public Authorities

---

- Dissemination of the information package for the residential sector through the relevant associations, internet & direct mailing
- Also distribute information package to authorities, energy agencies, planners and their associations
- Carry out a 1 day training course in each region for people from public administrations responsible for implementing the EPBD)
- Specific consulting for selected municipalities on how to introduce the energy performance certificates (3-5 municipalitites who have not been involved in WP3)

# Info Point Activities (1)

---

- Giving information on EPBD over phone, e-mail & website
- Providing up to date information on website
- PR activities (articles in news papers, websites etc.) to make project web-site and info point activities known
- Communication, presentations at appropriate events & meetings with stakeholders and other players on National level & in other regions of the countries – to disseminate the results and give input for other EPBD implementation activities

# Info Point Activities (2)

---

- Collecting & processing information regarding the certificates issued in the region during the project time
- Monitoring the issued certificates
  - Number of certificates
  - Experiences
  - Problems
